CONTENTS.

FARMERS' BULLETIN No. 226.—THE RELATION OF COYOTES TO STOCK RAISING IN THE WEST:

Page.

Introduction 9
General habits of coyotes 10
Food of coyotes 11
Destruction of coyotes 15
Protection against coyotes 18

FARMERS' BULLETIN No. 227.—EXPERIMENT STATION WORK, XXX:

Top-dressing grass land 5
Extension of the corn-growing area 8
Culture of peanuts for forage 10
Winterkilling of fruit trees 12
Cranberry culture 15
Lime-sulphur-salt wash 19
Destroying prairie dogs 22
Clean milk 24
Construction and ventilation of poultry houses 28

FARMERS' BULLETIN No. 228.—FOREST PLANTING AND FARM MANAGEMENT:

Forestry and farm designing 7
The need of forest planting 8
Mistakes of the past 8
Preparation of a planting plan 10
A concrete example 11
A model prairie farm plan 14
Trees and methods recommended 15
Special features of forest planting about the farmstead 18
Conclusion 21

FARMERS' BULLETIN No. 229.—THE PRODUCTION OF GOOD SEED CORN:

General demand for well-bred seed corn 5
Improved strains needed for different localities 5
An opportunity for progressive farmers 5
Important characters a corn should possess 6
Method of corn breeding outlined 10
The increase field 16
Importance of following a method of corn improvement 16
Care of seed corn 17
Testing the germination of seed corn 19
Conclusions 20
Appendix.—Selection and care of seed corn 21

Page.

FARMERS' BULLETIN No. 230.—GAME LAWS FOR 1905. A SUMMARY OF THE PROVISIONS RELATING TO SEASONS, SHIPMENT, SALE, AND LICENSES:
Introduction 5
Legislation of 1905 6
Close seasons 13
Shipment of game 27
Sale 36
Licenses for hunting and shipping game 40
Appendix.—Tables showing close seasons for game under county laws ... 50
FARMERS' BULLETIN No. 231.—SPRAYING FOR CUCUMBER AND MELON DISEASES:
Introduction 5
Descriptions of diseases 5
Disease resistance 10
Spraying experiments 11
Practical conclusions relative to methods of spraying 12
Preparation of Bordeaux mixture 20
Cost of spraying 22
Profits 22
Spraying, a form of insurance 23
When to begin spraying 23
Interval between sprayings 23
Effect of Bordeaux mixture on the fruit 23
Control in the greenhouse 24
FARMERS' BULLETIN No. 232.—OKRA: ITS CULTURE AND USES:
Introduction 5
Botany and geography of the plant 5
The soil and its preparation 6
Planting the seed 6
Cultivation 7
Gathering and marketing 7
Cultivation for seed 8
Insect enemies and their control 9
Uses 9
Methods of preparing 11
Varieties 12
Summary 16
FARMERS' BULLETIN No. 233.—EXPERIMENT STATION WORK, XXXI:
The root systems of field crops 5
Fertilizers for asparagus 11
Growing mushrooms for home use 13
Onion culture in the Southwest 16
The use of ether in forcing rhubarb 18
Noodles 20
Condimental feeds and condition powders 21
Beef type *v.* dairy type for beef production 22
Methods of feeding skim-milk calves 22
Animal food for ducklings 25
Milk from diseased cows 27
Cider vinegar 28
FARMERS' BULLETIN No. 234.—THE GUINEA FOWL AND ITS USE AS FOOD:
Introduction 7
Varieties of guinea fowl 8

Page.

FARMERS' BULLETIN No. 234—Continued.
Habits and care 10
Marketing guinea fowl 14
Price of guinea fowl 18
Cooking of guinea fowl 19
Guinea hens' eggs 20
Composition and food value of the flesh and eggs of guinea fowl 21
Conclusion 23
FARMERS' BULLETIN No. 235.—CEMENT MORTAR AND CONCRETE: PREPARATION AND USE FOR FARM PURPOSE:
Introduction 3
Cement 3
Cement mortar 4
Materials for making concrete 6
Concrete 8
Concrete sidewalks 15
Concrete basement floors 18
Concrete stable floors and driveways 18
Concrete steps 19
Reinforced concrete fence posts 20
Concrete building blocks 25
Appendix 27
FARMERS' BULLETIN No. 236.—INCUBATION AND INCUBATORS:
Preliminary remarks 3
Importance of the incubator 3
A study of eggs for incubation 4
Incubation 7
The incubator 8
Summary of the defects of incubators 19
Summary of the good points of an incubator 20
How to operate an incubator 21
Summary 30
General remarks 31
FARMERS' BULLETIN No. 237.—EXPERIMENT STATION WORK, XXXII:
Lime and clover 5
Fertilizer requirements of bearing fruit trees 7
Practical apple growing in New York 8
Running out of seed wheat 11
Selection of seed wheat with high protein content 11
Tobacco seed selection 12
A cover crop for tobacco fields 13
Cereal breakfast foods 14
Damaged wheat as feed 18
Bedding for cows 20
Suggestions for amateur poultry raisers 22
Care of cream on the farm 25
Paying the patrons of creameries 27
Gassy fermentation of Swiss cheese 29
Yeast as a disinfectant 32
FARMERS' BULLETIN No. 238.—CITRUS FRUIT GROWING IN THE GULF STATES:
Introduction 7
Climate 8
Soil 8

FARMERS' BULLETIN No. 238—Continued. Page.
Site of the grove 9
Varieties 11
Preparation of the land 14
Setting out 15
Catch crops 16
Pruning 17
Fertilizers 17
Picking 23
Washing 23
Sorting 24
Wrapping 25
Packing 25
Shipping 26
Storing 27
Marketing 28
Protecting trees against cold 29
Top-working 33
Crown-working 34
The nursery 35
Propagating by cuttings 42
Budding 42
FARMERS' BULLETIN No. 239.—THE CORROSION OF FENCE WIRE:
Introduction 5
Manufacture of iron and steel 9
Manufacture of wire 14
Investigation of the causes of fence-wire corrosion 15
The process of galvanizing wire 22
Appendix 25
FARMERS' BULLETIN No. 240.—INOCULATION OF LEGUMES:
Introduction 3
Directions for using cultures 3
When inoculation is desirable 5
When inoculation may prove advantageous 5
When inoculation is useless 5
When inoculation will be a failure 5
Keeping cultures for future use 6
Confusion of nematode galls with nodules 6
Danger in inoculation by soil transfer 6
FARMERS' BULLETIN No. 241.—BUTTER MAKING ON THE FARM:
Causes of changes in milk 5
Milking the cow 6
The barn 8
Milk utensils and their care 9
Handling of milk after it is drawn 10
The cream separator and its operation 11
Separating the milk 16
Ripening the cream 18
The acid test 22
The churn 24
Working the butter 26
Packing butter 28
Marketing the butter 29
Storing or holding for market 30

FARMERS' BULLETIN No. 242.—AN EXAMPLE OF MODEL FARMING: Page.
Introduction 7
How the soil was improved 7
Systematic management 8
The products sold 8
Hands employed and methods of work 9
The cows and their feed 9
Crops and management 11
Handling the manure 13
Curing hay 14
Conclusions 14
FARMERS' BULLETIN No. 243.—FUNGICIDES AND THEIR USE IN PREVENTING DISEASES OF FRUITS:
Introduction 5
Fungicides and their preparation 5
The treatment of some important diseases 18
Types of spray outfits 24
How to obtain success in spraying 30
Identification of plant diseases 30
FARMERS' BULLETIN No. 244.—EXPERIMENT STATION WORK, XXXIII:
Handling seed corn 5
Adaptation of corn to a new locality 7
Root nodules as affecting composition of soy beans and cowpeas 8
Fumigation of nursery stock 11
The cooking quality of potatoes and factors which affect it 13
Food value of cottage cheese, rice, peas, bacon, and milk 21
Dry feeding and self-feeders for poultry 25
Extermination of cattle ticks 29
Covered yards for cows 32
FARMERS' BULLETIN No. 245.—RENOVATION OF WORN-OUT SOILS:
Preliminary remarks 3
Differences in natural fertility 3
Nature of the soil 4
Mineral plant food 5
Nitrogen compounds 5
Soil moisture and humus 6
Soil air 7
Substances thrown off in the soil by growing plants 7
Effects of tillage 8
Effect of plowing soil when too wet or too dry 9
Terracing and soil washing 10
Improving the soil 11
Types of farming that build up soil quickly 15
Summary 16
FARMERS' BULLETIN No. 246.—SACCHARINE SORGHUMS FOR FORAGE:
Origin 7
Classification of sorghums 7
Introduction into the United States 8
Area and importance of crop 9
Varieties of saccharine sorghums 11
Conditions of growth 18
Effect on the land 19
Alkali resistance 19
Drought resistance 20

FARMERS' BULLETIN No. 246—Continued. Page.
Methods of culture 20
Yield 29
Uses and value 30
Chemical composition 35
Digestibility 36
Summary 36
FARMERS' BULLETIN No. 247.—THE CONTROL OF THE CODLING MOTH AND APPLE SCAB:
Introduction 5
The codling moth 5
Apple scab 12
Spraying 16
FARMERS' BULLETIN No. 248.—THE LAWN:
Introduction 5
General characteristics of lawns 5
The soil 6
Fertilizers 8
Grasses adapted to lawn making 9
Seed 13
Establishing a lawn 14
Relation of walks and drives to the greensward 18
Relation of trees and shrubs to a lawn 19
FARMERS' BULLETIN No. 249.—CEREAL BREAKFAST FOODS:
Introduction 7
Grains used for breakfast foods 9
Preparation of modern cereal breakfast foods 10
Nutrients and energy—Total and digestible nutrients in cereal breakfast foods 12
Digestibility 17
Wheat preparations with and without bran 19
"Predigested" and "malted" breakfast foods 20
Cooking 22
Absorption of water—Solubility of cereals—Gruels 24
Raw cereal foods 26
Adulteration of cereal breakfast foods 26
Cost of cereal breakfast foods 27
Breakfast cereals prepared at home 30
The place of cereal breakfast foods in the diet 31
Cereal products as coffee substitutes 33
Summary 34
FARMERS' BULLETIN No. 250.—THE PREVENTION OF STINKING SMUT OF WHEAT AND LOOSE SMUT OF OATS:
The importance of treating seed wheat in order to prevent smut 3
Other smuts which cause damage to cereal crops 4
Principal treatments for wheat smut 4
Handling the seed after treatment 12
Drying grain after treatment 12
Disinfection of the drill 13
Treatment for loose smut of oats 13
Treating a small field of grain for seed 15
Summary 15
